## PRINCIPLES AND PRACTICES BOARD CHARITY CARE AND FINANCIAL ASSISTANCE POLICY AND PROCEDURES

### I. POLICY

Comanche County Medical Center is committed to providing charity care to persons who have healthcare needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for medically necessary care based on their individual financial situation.

Consistent with its mission to deliver compassionate, high quality, affordable healthcare services and to advocate for those who are poor and disenfranchised, Comanche County Medical Center strives to ensure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care. Comanche County Medical Center will provide, without discrimination, care for emergency medical conditions to individuals regardless of their eligibility for financial assistance or for government assistance.

Accordingly, this written policy:

- Includes eligibility criteria for financial assistance – free and discounted (partial charity) care
- Describes the basis for calculating amounts charged to patients eligible for financial assistance under this policy
- Describes the method by which patients may apply for financial assistance
- Describes how the hospital will widely publicize the policy within the community served by the hospital
- Limits the amounts that the hospital will accept as payment in full for emergency or other medically necessary care provided to individuals eligible for financial assistance to amount generally received by the hospital for commercially insured or Medicare patients

Charity is not considered to be a substitute for personal responsibility. Patients are expected to cooperate with Comanche County Medical Center's procedures for obtaining charity or other forms of payment or financial assistance, and to contribute to the cost of their care based on their individual ability to pay. Individuals with the financial capacity to purchase health insurance shall be encouraged to do so, as a means of assuring access to health care services, for their overall personal health, and for the protection of their individual assets.

In order to manage its resources responsibility and to allow Comanche County Medical Center to provide the appropriate level of assistance to the greatest number of persons in need, the Board of Directors establishes the following guidelines for the provision of patient charity.

## II. DEFINITIONS

For the purpose of this policy, the terms below are defined as follows:

**Charity Care:** Healthcare services that have been or will be provided but are never expected to result in cash inflows. Charity care results from a provider's policy to provide healthcare services free or at a discount to individuals who meet the established criteria.

**Family:** Using the Census Bureau definition, a group of two or more people who reside together and who are related by birth, marriage, or adoption. According to Internal Revenue Service rules, if the patient claims someone as a dependent on their income tax return or have legal documentation of custody, they may be considered a dependent for purposes of the provision of financial assistance.

**Household Income:** Household Income is determined using the Census Bureau definition, which uses the following income when computing federal poverty guidelines:

- Includes earnings, unemployment compensation, workers' compensation, Social Security, Supplemental Security Income, public assistance, veterans' payments, survivor benefits, pension or retirement income, interest, dividends, rents, royalties, gross farm income, income from estates, trusts, educational assistance, alimony, child support, assistance from outside the household, and other miscellaneous sources;
- Noncash benefits (such as food stamps and housing subsidies) do not count;
- Determined on a before-tax basis;
- Excludes capital gains or losses;
- Income from any individual that resides in the home.

**Uninsured:** The patient has no level of insurance or third-party assistance to assist with meeting his/her payment obligations.

**Underinsured:** The patient has some level of insurance or third-party assistance but still has out-of-pocket expenses that exceed his/her financial abilities.

**Gross charges:** The total charges at the organization's full established rates for the provision of patient care services before deductions from revenue are applied.

**Emergency medical conditions:** Defined within the meaning of section 1867 of the Social Security Act (42 U.S.C. 1395dd).

**Medically necessary:** As defined by Medicare (services or items reasonable and necessary for the diagnosis or treatment of illness or injury).

**Medically Indigent:** A patient is medically indigent when the medical debt, after any payment by third-party, exceeds 33% of the patient's annual household gross income (based on most recent income tax return) and who is expected to be unable to pay the account in full over a two-year period. Comanche County Medical Center (CCMC) will consider other financial assets and liabilities of the person when determining the ability to pay. A charity adjustment will be made to reduce the financial obligation to 33% of the patient's annual household gross income.

- If a determination is made that a patient does have the ability to pay the remainder of the bill, this does not prevent a reassessment of the patient's ability to pay at a later date when financial circumstances have changed.
- If a patient has Medicaid or Medicare / Medicaid and for some reason the medical services is not covered the charges for the uncovered service may be considered for charity care / financial assistance.
